

Enhance Your Skills with India's Leading Data Recovery Experts

IDEAL FOR GOVERNMENT OFFICIALS, LAW
ENFORCEMENT & FORENSIC INVESTIGATORS.

CERTIFIED
DATA RECOVERY
TRAINING PROGRAM

*India's only Data Recovery Training Program
conducted in certified Class 100 Clean Room
Lab by data recovery experts having a collective
experience of more than 100+ years, in the field
of data recovery.*

Learn Data Recovery from their unparalleled knowledge
and experience from different storage devices.

STORAGE DEVICES

- Hard Disk Drive
- Solid State Drive
- RAID Server
- DVR/CCTV
- Flash Media

RECOVERY LEVELS

- Logical
- Physical
- Firmware
- Logical cum physical
- Ransomware corrupted Database repair

TECHNOLOGIES

- PC 3000
- MRT
- Rusolut VNR
- Dolphin DFL

TECHNIQUES

- HDD Head Transplantation
- Platter Extraction
- Chip Off Recovery
- Head DEPOP
- Firmware Repair in HDD/SSD

PROGRAM BENEFITS

- ✓ Master the use of specialized tools & equipment's for data recovery
- ✓ Recover & diagnose data from inaccessible storage independently
- ✓ Perform advanced data recovery in-house
- ✓ Hands on training on real time media & on different types of cases
- ✓ Stay updated with the latest advancements in data recovery
- ✓ Engage in practical training sessions simulating real-world scenarios
- ✓ Earn industry-recognized certifications as a data recovery professional

The Stellar Certified Data Recovery Training Program is an extensive skill enhancement class room course focused on data recovery from various storage devices, including HDD's SSD's, Flash media, Raid configured servers and DVR/CCTV systems. The training program covers a wide range of techniques and tools such as PC 3000, MRT, & Rusolut VNR to be used for data recovery. This program equips participants to effectively tackle modern, challenging data loss situations & get certified from the best data recovery organization to get the best output.

Course Details	Basic	Intermediate	Advanced
Basics of Data Storage Devices & Logical Data Recovery <i>(File system, Deleted data recovery, RAW data recovery, encrypted drive recovery)</i>	✓	✓	✓
File Repair, Database Repair, Email Repair by using Stellar software <i>(Repair corrupted video, photos, databases, MS office files, Ransomware affected files, email conversion)</i>	✓	✓	✓
Physical & Firmware level Recovery <i>(Internal firmware structure overview for HDD, Flash drives, head mapping, image/clone, RAW recovery, Active utility function)</i>	✓	✓	✓
Logical Data Recovery, Logical cum Physical Data Recovery & Physical Data Recovery (Firmware issues using different tools).	✓	✓	✓
Class 100 Clean Room work shop for HDD Recovery <i>(head removal, head structure, platter extraction, fixing scratches on platter, HDD cloning etc)</i>	✗	✓	✓
SSD Data Recovery by using specialized tools <i>(safe mode setting, virtual translator, SM controller, recover from SATA, mSATA, M.2.SATA, NVMe)</i>	✗	✓	✓
Handling complex Cases for Data Recovery	✗	✗	✓
Seagate Hard Drive Firmware Repair <i>(Servo error, DWF issue, SIM error 1009, F3 HDD- AFH, Rosewood Drive, SMP flag issues)</i>	✗	✗	✓
WD Hard Drive Firmware Repair <i>(TLR error, unlocking SMR drives, remapping service areas, Relo- list issues, USB to SATA Conversion)</i>	✗	✗	✓
Data Recovery from Toshiba & Hitachi Hard disks <i>(G list errors, BIOS password unlocking, Virtual translator image using G-list, P-list)</i>	✗	✗	✓
Data Recovery from Samsung Hard disks <i>(RAM head map editing, solving LED errors)</i>	✗	✗	✓
Hands on experience - Workshop	✗	✗	✓
Physical Damage SSD Data Recovery <i>(Firmware issues in SSD, Chip off method for data recovery, donor compatibility techniques)</i>	✗	✗	✓
Number of Days	3 Days	6 Days	9 Days
